Main aims:

- To integrate awareness about inclusive education into educational institutions' regular professional development activities.
- To improve knowledge, skills (including advocacy skills) and competences of the pedagogical staff towards implementation of inclusive learning practices based on exiting good practices.
- To improve the abilities of the pedagogical staff towards assessment of abilities and identification of needs of each student with disability.
- To improve the existing teaching methods by upscaling of best practices in inclusive learning implementation of already existing and measured as successful tools, resources and methods.

Target groups:

- Pedagogical staff at early childhood and schools: teachers, trainers, head teachers, principals, headmasters, resource tutors
- Social and youth workers
- Non-governmental organizations
- Educational planners / Policy makers – local educational authorities, municipality departments on inclusive education policies, dedicated departments at Ministry of education and science, Ministry of youth and sports, etc.

Following products will be developed:

- Collection, systematisation and categorisation of the good practices
- European inclusive learning hub containing inclusive searchable/ usable learning resources, methods, tools and mechanisms already tested, approbated and deployed in other countries.
- Pilot upscaling and implementation into practice
